

DGLED-Cube LED

The LED cube screen is a product that our company excels in mass production. It utilizes high-end cutting-edge technology to achieve seamless splicing between each display surface. During the design process, it is integrated with the actual installation scene to create a more innovative LED display solution. In terms of products, the unique shape of the LED cube screens captivates users and breaks away from traditional monotony, offering a fresh visual experience.

Key Feature

· Easy to install

· Low power consumption

· 360 degree full view playback

Applications

Exhibition Halls

Hotel

Malls

Town Square
